

M-Safe 4013 Premium harness 5D

- Comfortable harness with two attachment points with comfortable work belt and three automatic buckles
- Two attached textile loops on the chest that must be attached with a carabiner snap hook (to be ordered separately) in order to create an anchor point, an extended D ring on the back for fall protection and two D rings on the side for work positioning
- Extended D ring can be attached to the harness with velcro when not used
- Adjustable shoulder and thigh straps
- Soft shoulder pads for better comfort
- Ideally positioned seat strap for better comfort when performing work while seated
- Provided with NFC chip under the label, intended for identifying users and keeping track of the inspection periods
- Belts are made of polyester and buckles are made of steel.
- To be used by persons weighing up to 136 kg (equipment included)
- Harness complies with the following standards: EN 361/EN 358

Art.No.: 8.84.013.00 Size S/M
